### Our Starting Point—Cornerstone 1 Making a Difference

- The real reason for teaching is to make a difference—to be honorable, competent, responsible, productive, and unselfish but proud. Teaching is not a profession; teaching is a calling—delightful, invigorating, mysterious, frustrating, passionate, precious, and sacred. Good teachers stretch the mind and heart. I hope the world is a better place because we teachers make a difference to our students; after all, that is what teaching is all about.~
