GREETINGS FROM STP PRESIDENT LORETTA MCGREGOR

What Do You Love Most About Teaching?

February 9, 2024

What do you love most about teaching?

Take a moment to reflect on your answer. I'm confident

your answer did not include "the pay."

I have taught for more than three decades, and on most days, I love my job. I still cannot believe I get paid to do what I do.

I put this question to a couple of my colleagues. Both are early career psychology professors. Each mentioned the thing they love the most about teaching is the ability to impart knowledge about psychology to others. One colleague added that it allows them to talk about psychology to a captive audience. I think these comments reflect how many of us feel, or have felt, about the teaching of psychology.

After many years of teaching, I've come to love my job because I now know I make a difference in the lives of my students. This may sound a bit self-aggrandizing, but I have evidentiary proof. Social media has given me the gift of remaining in contact with former students like never before. This continued contact gives me a glimpse into their lives

after college. Occasionally, these individuals contact me and cite a specific previous interaction that has impacted their and their families' lives. I am grateful when someone recalls a particular event from class, a comment from an earlier conversation, or explains how they turned a psychological concept into something actionable. These interactions help me realize that what I do does make a difference in the world.

While teaching my students about psychology, they often teach me about pop culture, current events, and constantly challenge me to re-examine some of my beliefs. In other words, my current students keep me young at heart and encourage my continued cognitive growth through their questions and conversations. As I stated above, I love my job!

It is easy for us sometimes to lose sight of the joy we receive through teaching. Strained institutional budgets, governmental oversight, and politicization of the educational system can make even the most stalwart educator question their career choice. But take a moment to breathe and realize you are doing great work! You are changing lives! I appreciate your dedication to the teaching of psychology.

FEATURED ITEMS

Add STP Emails to Your Allow List

We recently learned that emails from STP leaders may not be reaching our intended recipients. Instead, our emails may be directed into spam/junk folders, and some institutional email filters may delete them before they reach a recipient's inbox. If you join or renew STP, register for ACT or PsychologyOne, apply for a grant or award, submit a teaching resource to an STP editor, or send an inquiry to the STP Executive Director, you may not receive communications from STP if STP emails are blocked or redirected.

SOLUTIONS: Please add **teachpsych.org** to your email allow list. Here are instructions for **Outlook** and **Gmail**. **If you are using your institutional email account** for STP correspondence (e.g., your membership, applications), you have two options: **(1)** Ask your IT department to check if teachpsych.org is on a deny list and request that the domain be added to the allow list, or **(2)** begin using your personal email account for STP correspondence. If you have a contact profile on the STP website, you may update your email [here](#) (requires login).

If you need assistance, contact aed@teachpsych.org and cc: div2teachpsych@gmail.com, preferably from a personal email account (in case your institution is blocking emails from STP).

News from the Director of ACT

By Lindsay Masland, Director of ACT

We are looking forward to the second half of the Annual Conference on Teaching for this academic year: ACT: Online! From February 12 through 14, 2024, we'll be highlighting asynchronous online content, including brand-new on-demand videos and posters from around the world. We'll also be sharing some cross-over content from the Portland conference, such as audio recordings of selected presentations, virtual versions of poster presentations, and access to presentation materials for many of the on-location sessions.

The synchronous portion of the conference will kick off in Zoom at 11 am Eastern time on Thursday, February 15th with a live, online-only keynote address delivered by **Kevin Gannon** of the book **Radical Hope!** We'll continue on the 15th and 16th with outstanding programming delivered in Zoom: all-new synchronous symposia, teaching demos, and participant idea exchanges.

As a reminder, complimentary access to the Online conference is included in the Portland registration fee. But if you weren't able to attend in Portland, you can register at the low online-only price of \$25, which gets you access to all of the content mentioned above (i.e., both the selected Portland content and all of the online-only info). And you'll maintain access to all of that content until October 1, 2024, which is quite a bargain!

And last, we're already hard at work scheduling the next on-location conference, which will be held October 10-12, 2024, in Louisville, KY at the Marriott Louisville Downtown. The request for proposals for this ACT: On Location will be out in Spring 2024. I hope to see you at a future ACT!

Death Notice

In addition to STP Remembrances, the editors of *STP News* will post death notices of individuals who have made substantial contributions to the teaching of psychology. Please email stp@teachpsych.org for consideration, and include a short paragraph, photo, and URL for more information.

Roger E. Kirk, Ph.D. 1930-2023

submitted by Janet Carlson

Roger E. Kirk, Emeritus Distinguished Professor of Psychology and Statistics, died December 30, 2023. His 60-year distinguished career at Baylor University was marked by many awards and recognitions for exemplary teaching, including earning: the title of Master Teacher (1993), which is Baylor's highest teaching award given in recognition of sustained excellence in teaching; the Jacob Cohen Award for Distinguished Contributions to Teaching and Mentoring from Division 5 of APA (2005); the Cornelia Marschall Smith Professor of the Year Award (2013) from Baylor University for "superlative teaching and outstanding research contributions;" and the Charles L. Brewer Award for Distinguished Teaching of Psychology from APF (2015). His colleagues consider Roger's greatest legacy to be his impact in the classroom, as he taught statistics to

virtually every psychology major at Baylor for more than 50 years. He was “a model of excellence in the way he has carried out his scholarship and the joy with which he approached his teaching” (Beaujean & Weaver, 2019). His influence on multiple generations of psychologists and statisticians was profound. Visit [here](#) for his obituary.

STP Remembrances

STP announces the creation of [STP Remembrances](#). This new wiki honors deceased STP officers and other individuals who have contributed to the teaching of psychology. For more information, or to contribute to the wiki, please contact [Bill Altman](#).

Report from NITOP 2024

by David Berg, Director of STP Programming at NITOP & Jason Spiegelman, Regional STP director for The Eastern Psychological Association

The 46th Annual National Institute on the Teaching of Psychology was held on January 3-6, 2024, at the Hyatt Regency Coconut Point Resort and Spa in Bonita Springs, FL. Both Jason Spiegelman and David Berg represented STP at the conference and staffed the table. We worked to introduce attendees to the important role that STP can play in their professional lives.

At the table, a wonderful Power Point on a laptop computer (created by Bill Altman) was running showing all of the STP resources. The new STP brochure with QR codes was available as well as lanyards, Post-its, STP badges, and luggage tags. Info about all of the STP services were distributed during all events (poster sessions, PIE presentations, teaching demos/slam, and to anyone who passed our table). The new STP logo table cover and banner were on display, and we thank Kristin Whitlock, Danae Hudson, and Christie Cathey who were instrumental in providing the banner, table cover stand-up STP table sign, and swag. Jason and I were actively getting many attendees to become STP members or to renew expired memberships. Jason distributed our handout request for the poster presenters and speakers to submit their work to the STP e-book publications. Jason also organized an impromptu dinner for STP members at the conference. David spoke at the NITOP lunch touting the benefits of joining STP and read his Ode to STP.

The highlight of STP programming at NITOP was our sponsored speaker, Morton Ann Gernsbacher. Dr.

Gernsbacher’s timely address was entitled “ChatGPT and Our Classes” The presentation was engaging, extremely well attended, and generated a great deal of conversation and very positive feedback. Also, Kristin Whitlock (pictured) presented a well-received workshop at NITOP entitled “Go-To Lessons to Promote Scientific Thinking.”

Both Jason and I would like to express our appreciation to the STP Executive Committee and kudos to Stephen Chew (Chair), Kenneth Carter, Bridgette Martin Hard, Erin Hardin, Beth Morling, and Annette Cook (coordinator) for their fine work and organization of NITOP.

News from APA

Virtual APA Psychology Graduate School Fair

The APA Education Directorate’s next [Virtual APA Psychology Graduate School Fair](#) is scheduled for Wednesday, April 17 from noon-4pm (Eastern). Registration for all prospective psychology graduate students is FREE, and psychology graduate programs that wish to recruit at this event can register for a modest fee.

The APA Psychology Graduate School Fair virtually connects recruiters for graduate psychology programs with a diverse group of students. The Fair is open to all graduate psychology degree granting institutions in the U.S. and Canada, and all areas of psychology are encouraged to participate. Participating graduate schools will be able to contact registered students both before and after the event to distribute information about their program or to arrange meetings with prospects at the event.

Summer Undergrad Research Fellowships

Undergraduate students who are enrolled in the Fall 2024 term and committed to equity, diversity, and inclusion are encouraged to apply for the [APA SUPER Fellowship](#), which provides a \$4,000 stipend to the student to conduct summer laboratory research and \$1,000 to their faculty host. All areas of psych science are welcome! **Applications are due March 1, 2024; don’t wait!**

BEA Training Innovation Grants

The [BEA Grant for Innovation in Career and Professional Skill Development for Psychology Graduate Students, Interns, and Postdoctoral Trainees/Scholars](#) supports psychology departments and programs in developing new and innovative practices to support career and professional development. **The deadline is April 2, 2024.**

APA Division T-Shirts Now Available

The latest addition to the [APA Merch Store](#) collection highlights APA's 54 divisions. Get this new classic-fit raglan T-shirt today.

Self-Care for Psychologists

Burnout and work-life balance are often cited as issues of concern amongst psychologists. [This timely and free e-booklet](#) offers a concentrated self-care resource for psychologists—whether you're embedded in an educational setting, operating a clinical practice, or conducting scientific research.

Distinguished Scientific Awards

Submit your nomination by March 15, 2024 for the [APA Distinguished Scientific Contribution Award](#) and the [APA Distinguished Scientific Award for the Applications of Psychology](#). Applications for the [APA Distinguished Scientific Award for an Early Career Contribution to Psychology](#) are **due June 1, 2024**.

DIVERSITY AND INTERNATIONAL RELATIONS

Contribute to a *ToP* Special Issue on Disability Education

A team from the [Disability Advocacy and Research Network](#) is editing a special issue of *Teaching of Psychology* on [Creating an Anti-Ableist Psychology Curriculum and Teaching Environment](#). Consistent with our [Mission Statement](#) and the [Statement on Addressing Systemic Racism and Inequity in STP](#), we encourage applications from colleagues who are from underrepresented groups and have diverse backgrounds and experiences.

Click [here](#) for more information. **The deadline for submissions is March 15, 2024.**

Join STP's Affinity Groups

STP has developed several [Affinity Groups](#) to connect teachers of psychology to others who share their identities and experiences. Click on the link above to join an existing group or to suggest others.

International Conferences

PLAT 2024 in India

by Aneesh Kumar, Christ University, India

STP is sponsoring the [International Conference on Psychology Learning and Teaching \(PLAT-2024\)](#) on August 1-3, 2024, at CHRIST University, Bengaluru, India. The conference organisers invite all STP

members to attend. The conference is organised by the Department of Psychology, CHRIST (Deemed to be University), and is sponsored by the Society for the Teaching of Psychology (STP), Division 2 of the American Psychological Association (APA), and the International Council of Psychology Educators Incorporated (ICOPE Inc). The conference will examine methods and developments in psychology education locally and internationally. **Early Bird Registration has been extended to March 15, 2024**

The conference organising committee and the faculty of the Department of Psychology at Christ University, Bengaluru (Bangalore), India, look forward to welcoming psychology educators from across the globe. The conference aims to document best practices in psychology teaching, learning and assessment, promote research-informed and evidence-based teaching and learning practices in psychology, and foster collaboration and build a network among psychology educators. The broad range of programming includes keynotes, symposia, workshops, panel discussions and paper presentations. More details about the conference and call for papers can be found [here](#).

European Congress on Positive Psychology

The [European Conference on Positive Psychology](#) is scheduled for July 10-13, 2024, in Innsbruck, Austria. **Early Bird Registration ends March 15, 2024.**

ECP Corner

Networking and Funding Opportunities

By Amanda Woodward, Chair of the Early Career Psychology Committee

The new (calendar) year is underway and moving quickly! At this time, many ECPs often think about ways to make the year better than the last, set some goals, and try to learn more along the way. One thing that can help us as we seek to accomplish our goals is to leverage our networks. However, as an ECP, it can sometimes be difficult to find opportunities to connect and funds to offset travel. The good news is that there are tons of opportunities for networking and funding, so hopefully this month's column can help the ECP community meet each other more!

First, the ACT: Online conference is rapidly approaching, and there is a great [schedule](#) of events, speakers, and posters, some of which are by fellow ECPs! If you're considering making any changes to improve your assignments or syllabi, the 2023 ECP Committee will have a presentation recapping our workshop from ACT: Portland in an asynchronous format.

Second, outside of ACT, there are great regional conferences, where you can network with colleagues and meet other ECPs. Some of our ECP Committee will be at the [SWPA in San Antonio](#) and [MPA Conference in Chicago](#) this year. There are other psychological conferences, [regional](#), [national](#), and [international](#), that feature STP programming, too! If you are interested in virtual options, we will also have a summer Hackathon and other events throughout the year. Each of these events will include networking opportunities for us to connect with others.

We know that attending in person events can be challenging without funds. February can be a good time to think about external funding options. Thankfully, there are several opportunities that cater to ECPs. For example, both [STP](#) (up to \$500) and [Psi Chi](#) (up to \$1500) have travel grants that help offset costs of attending conferences. Both of these grants have multiple deadlines throughout the year.

Be sure to check out the ECP updates on Twitter/X and our website! We will be posting more updates regarding conferences, meet-ups, travel awards, and much more. We would also love to hear from you! Have you published a teaching paper lately? Are you presenting at any teaching conference coming up this year? Are you looking to develop any collaborations?

Would you like to be part of an ECP member spotlight? If yes, we want to hear from you! E-mail us at stp-ecp@teachpsych.org, and we can highlight your teaching and conference wins on our social media!

As always, if you have any questions or thoughts, feel free to reach out to any ECP member or contact us through Twitter/X or e-mail, listed below.

Sincerely,

Your STP Early Career Psychologists Committee:

Dina Gohar, Ph.D.
Maria Iankilevitch, Ph.D.
Ciara Kidder, Ph.D.
Vishal Thakkar, Ph.D.
Amanda Woodward, Ph.D.

For regular updates on ECP activities

STP's Social Media Networks

STP's Membership Communication Committee oversees STP's [X](#), [Facebook](#), and [Instagram](#) accounts. STP also maintains two [Listservs](#).

Join/Renew STP Through 2024

STP is processing new memberships and renewals for now through the 2024 calendar year.

[Join now](#)

JOIN STP: [Click here to join](#). You will receive immediate access to online member benefits including online access to STP's journal, *Teaching of Psychology*, through December 31, 2024.

RENEW IN STP: Visit [here](#) for instructions on how to renew. The process differs for APA members and non-APA members.

Membership Committee News

Hello STP Members!

My name is Sean Coyne, and I am a member of the STP Membership Committee (say that 10 times fast!). If you're anything like me, 2024 already feels like it is off to a running start. But are you still looking to nail down a New Year Resolution? We have some great (and easy) suggestions for you by taking advantage of some of the excellent resources available to STP members!

- Expand your social network and meet other educators with your affinities! STP has many affinity groups for you to join so that you can connect with other psychology educators. This is a great opportunity to link with other STP members that maybe you didn't even know were out there! To join an affinity group, visit [here](#).
- Commit to reading a new book! STP offers a number of free e-books in PDF format, which you can download to your Nook, Kindle, or other electronic device! To check out our available e-books, visit [here](#).
- Plan to travel to a new destination! And while doing so, why not try out an STP sponsored conference? Traveling to a new place is a great way to expand your horizons in the new year, and combining it with a chance to engage in the scholarship of teaching and learning makes it even better! From the Annual Conference on Teaching (happening in Louisville, KY this year) to the many national and regional conferences, you have a wide variety of places to travel to! For information on upcoming programs, visit [here](#).
- Spruce up your syllabi! Looking to spice up your current syllabi? Already planning your courses for next academic year? Project Syllabus is a great way for you to develop syllabi more fully in a variety of psychology disciplines. To check out Project Syllabus, visit: <https://teachpsych.org/otrp/syllabi/index.php>

We hope you find our suggestions to add a last-minute resolution to your 2024 helpful! And don't forget, we are always looking for more members to highlight! Please fill out the following form (and share with your friends and colleagues) and you could be our next **Member Spotlight!**

Member Spotlight!

convention website soon, and will include infant feeding rooms, financial assistance (including for students), ASL interpreters, and a commitment to work with other requests. Contact APS-STP TI Director Molly Metz with any questions at aps-conference@teachpsych.org.

Inaugural MAESTRO Psych Conference

The inaugural **Mid-Atlantic Educators of InTRO Psych (MAESTRO) Conference** (Friday, April 12, 2024, 9:00am-4:30pm Eastern, Arnold, MD) is for educators who are passionate about teaching Introduction to Psychology. Teaching demonstrations, small-group discussions, and a keynote speaker (Dr. Dana S. Dunn) will inspire you and give you concrete tools and ideas you can take directly back to your classrooms. Make your teaching life easier and more impactful, and network and collaborate with other fantastic instructors! **Proposals may be submitted at any time, but highest priority will go to those submitted by February 25, 2024.**

TIP Northwest

The 10th annual conference for **Teaching Introductory Psychology (TIP) Northwest** will take place on April 26, 2024 at the Four Points Sheraton (Seattle Airport South). Our theme this year is "Building Bridges: Psychology's Role in a Connected World." The conference will feature invited keynote speaker Dr. Melissa "Missy" Beers (The Ohio State University).

Psychology ONE

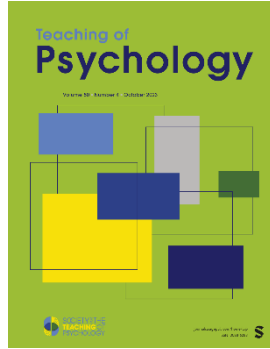

The **Psychology ONE** conference connects instructors dedicated to harnessing the potential of the introductory psychology course. It will be held on June 27-28, 2024, at Duke University. **The deadline for proposals is March 1, 2024.**
